

The following table displays middle school CSAP-A performance level results for 2006 and 2007, by student demographic subgroups containing at least 16 students.

CSAP-A performance levels are: Inconclusive (IN), Exploring (EX), Emerging (EM), Developing (DE), and Novice (NO). The percentages of students at each level are shown for each group of 16 or more. An asterisk (*) indicates that the group contained fewer than 16 students.

The English Language Learners (ELL) group includes Non-English Proficient, Limited English Proficient, and Fluent English Proficient students whose native language is not English. Free or Reduced Meals (FRM) eligibility is based on family income.

CSAP-A is an alternative Colorado assessment for special education students who are not able to take CSAP. The Colorado Department of Education assures that districts do not over-use CSAP-A but give it only to students who really need it by limiting the number of Emerging and higher scores allowed to one percent of district grade 3 - 10 enrollment.

District CSAP-A Middle Level (grades 7-8) Reading Results

Student Group	Year	Percent IN	Percent EX	Percent EM	Percent DE	Percent NO	Percent No Score	Number of Students
