

Student Interns

The Colorado Workers' Compensation Statute, 8-40-202(1)(a)(IV) requires that any person who may at any time be receiving training under any work or job training program sponsored by any school district and who is placed with any employer for the purpose of training or learning trades or occupations shall be deemed while so engaged to an employee of the respective school district sponsoring such training.”

Douglas County Schools carries the workers' compensation insurance coverage on all students that participate in internship programs or job shadowing programs. This requirement is for students who are not receiving compensation.

Please email tj.crawford@dcsdk12.org a list that includes the student's names and work sites.

T. Crawford will send you a letter and a copy of the Certificate of Insurance.
