### 1. PARCC Scores and the 17-18 Assigned Performance Plan-

- a. Since last spring we moved from Priority Improvement Plan, to meeting expectations in performance level.
- b. We are breaking children into smaller groups to help those children in need.
- c. It will take a while to achieve but the district needs to see our data for improvement.

### 2. Budget and Enrolment Update-

- a. In October we projected 187 students, we only had 157 so we paid back contingency for the deficit.
- b. We now have a forgiveness factor, to help with budget.

### 3. DAC Report-

- a. Assessment participation was low, but they didn't emphasize the issue.
- b. They seemed happy with the survey results, and the results were mostly consistent across the board.
- c. Site Reviews, talked about making their own review board to make sure its working because DAC isn't the most qualified to analyze the data.

### 4. Safety-

- a. The kiss and go lane are not being used as such.
- b. Some parents have their children meet them halfway to the park, which could be dangerous.
- c. People have been driving recklessly.

### 5. Community Member for SAC-

- a. We need someone who doesn't have a student attending, who can attend the meetings.
- b. We are asking around to see if anyone wants to volunteer.

### 6. Misc. –

- a. Mental Health: We are having problems with urine and feces being left intentionally on the bathroom floors. The problems stop while using the buddy system and we have established a bathroom log sheet to try and identify the student(s) responsible.
